

# Interactive Gate Kiosk

# Innovative and powerful Gate Kiosks

The CERTUS Gate Kiosk facilitates automation of the gate process and any required interaction with the driver, thus reducing waiting times at the gate. The CERTUS AutoGate solution includes this innovative gate kiosk which support trucks, cars and pedestrians in self-service activities. It allows for a process in which drivers no longer have to get out of their vehicles, but can activate and complete their mission via the kiosk. These activities include driver identification, transaction registration and performing various confirmations.

The driver kiosks are key in making it possible to centralize clerks to a remote location instead of having clerks standing in Gate lanes to verify truck/driver/transaction details. This self-service concept limits the number of gate operator interventions (only in case of errors or exceptions) allowing the terminal to reduce these resources significantly and simultaneously minimize the truck processing times.

## CONTINUOUS INNOVATION KEEPS CERTUS AUTOMATION AT THE FOREFRONT OF GATE AUTOMATION

### The main benefits

Today, hundreds of CERTUS Gate Kiosks are operational across the globe, in small to large scale operations and this amount is growing steadily. CERTUS Gate Kiosks excel due to the following:

- Robust and designed to work in harsh environments
- Climate proof and able to withstand the most extreme weather conditions
- Modular build and can support multiple configurations
- Easy to install and require a single connection
- Easy to service at all times
- Support connections to surrounding devices
- Flexibility to add customer specific equipment
- Available in corporate identity colors and with illuminated customer logo

## Features to meet every Gate transaction

CERTUS Gate Kiosk has a customized design that is tailored to customer needs. Main features and components of the kiosk include:

**Robust Industrial**  
Data Processor

**High Brightness**  
Touch Screen

**Direct Thermal Line**  
Ticket Printer

**Crystal Clear**  
VOIP Communication

**Anti-Vandalism**  
Face Camera

**Biometric**  
Validation

**Driver**  
Identification Reader

**Filtered**  
Air Ventilation

**Barcode/ QR code**  
Reader

# SPEED UP YOUR INTERACTIVE VISITOR PROCESS

## One configuration meets all

The same kiosk can be configured for the purpose of Car, Truck, Van and Pedestrian.

## Our Customers

CERTUS customers include many of the major terminal operators, logistic- and distribution center operators, depots, intermodal terminals and port authorities. Some key figures on our installed base: over 50 customers worldwide, over 40 ports and 20 logistic facilities worldwide, in over 29 countries.

## About CERTUS

CERTUS Automation is a world leader in the fields of OCR and machine vision software for port- & logistics process automation. Our global headquarters including back office, workshops, warehousing and logistics center is located near the Port of Rotterdam in the Netherlands. The Company benefits from the contribution of over 70 employees globally, most of which serve in the development, manufacturing and integration areas.

CERTUS is an internationally operating company, executing projects around the globe. The network of CERTUS offices, local representative partners and a 24/7/365 Support Desk with experienced hardware and software engineers are there to support after go-live. At CERTUS we strongly believe that our industry quality standards make a significant difference. CERTUS is ISO 9001 certified. Our knowledge and experience make us an reliable partner for all automation projects.
